

**CENTRAL COMMUNICATIONS ADVISORY BOARD**

The Central Communications Advisory Board serves as an advisory group for the Central Communications System. Among its responsibilities, the board develops an annual budget, assists in the development of training requirements and any other matters related to the efficient and effective operations of the Central dispatch system. The board is comprised of six members, three appointed by Pasquotank County, two appointed by the City of Elizabeth City Council and one appointed by Camden County. The group generally meets on the second Tuesday of each month at 7:30 p.m. in the Pasquotank County Public Safety Building. Members are compensated \$25 per meeting. The resolution establishing the board does not specify that a Councilor must serve, but it has been the tradition. Terms are not established. (City policy adopted September 8, 2014 specifies two consecutive, two year terms for City appointees.)
